Evaluated Million Hearts project for Maryland Department of Health and Mental Hygiene

Trained data analysts on data based decision-making at the Social Security Administration (Headquarter)

RESEARCH

Research Interests:

- *Healthcare IT*: Electronic health records, telehealth, hospital FinTech & health outcomes
- *Business Value of Information Systems*: IT-productivity, IT-enabled production capability
- *Artificial Intelligence & Social Media*: Chatbots, medical AI devices, word-of-mouth & access to care

Methodology:

- *Econometrics*: Cross-sectional and panel data estimations based on IS and econ theories
- *Data Analytics & Machine Learning*: Regression, clustering, classification, natural language processing, decision trees, neural networks

HONORS AND AWARDS

MIS Researcher of the Year Award, MIS Department, Temple University, 2026.

Faculty Leadership Award, MIS Department, Temple University, 2026.

Faculty Advisor of the Year Award, Association for Information Systems Student Chapters, 2024 - 2025

Dean's Research Honor Roll, Fox School of Business 2023 - 2024

Best Paper Award, Assoc. for Information Systems – Special Interest Group: Advances in Sourcing, 2023

- For the paper "Value Implication of Sourcing Electronic Health Records: The Role of Practice Integration in Hospitals" published in Information Systems Research. [Link](#)

Best Health IT in Action Paper Award, Conference on Health IT and Analytics, Washington D.C., 2022

- Selected as the most impactful case study of Health IT in Action paper, recognizing its practice impact.

Winner, Big Ideas Competition in Healthcare and Biopharma Industry, Fox School of Business, Temple University, Grant of \$10,000. 2020

Young Researcher Award, Conference on Health IT and Analytics, Washington D.C., 2019
